Business Intelligence Analyst | SQL • Power BI & Tableau • KPI Reporting

PROFESSIONAL SUMMARY

Analyst completing an M.S. in Data Analytics, with ten years of building and using reporting inside operational organisations. At Tropicana I built the executive dashboards leadership actually acted on, tracking throughput, yield and cost across a high volume production facility. Comfortable translating between people who own the numbers and people who need to decide with them. Strong on SQL, Power BI and Tableau, adding Power Platform. Based in Iceland, working daily in Icelandic.

CORE COMPETENCIES

- **BI & Visualisation:** Power BI, Tableau, Excel, dashboard design and maintenance, KPI definition, executive reporting, self service reporting for non technical users
- **Data & Analysis:** SQL, Python, R, RStudio, IBM SPSS Statistics and Modeler, statistical analysis, data mining, predictive modelling, data models and system connections
- **Automation:** Process mapping and analysis, workflow redesign, Microsoft Power Platform (PL-900 in progress), Lean continuous improvement
- **Data Quality:** Completeness, validity and consistency controls, reporting integrity, documentation and audit readiness
- **Working Style:** Advising non technical colleagues on data use, cross functional and multicultural collaboration, prioritisation across concurrent projects
- **Languages:** English (native), Icelandic, Danish

EDUCATION

M.S., Data Analytics | Davenport University — *Expected 2026* GPA 3.6

B.S., Food Science | University of Tennessee, Knoxville — *2013*

Doctor of Medicine (paused) | University of Medicine and Health Sciences — *2023*

PROFESSIONAL EXPERIENCE

Shift Supervisor | Grund Nursing Home, Reykjavík, Iceland — *2021–Present*

- Built process tracking and structured reporting that replaced informal handover, improving accountability across shifts.
- Coordinate staffing and daily operations against fixed compliance and documentation requirements, in Icelandic.

Senior Manufacturing Resource / Line Owner | Tropicana Inc., Ft. Pierce, FL — *2015–2018*

- Built and maintained executive dashboards in Power BI, Tableau and Excel tracking throughput, yield and cost KPIs, giving leadership a consistent basis for decisions.
- Analysed production schedules, staffing and operational costs to find inefficiencies, identifying improvements worth approximately $155,000 annually.
- Owned the integrity of production data reported against the Canadian carton juice product line.
- Advised production, maintenance and management colleagues on what the numbers meant and what to do about them.
- Supervised approximately 60 operators as plant liaison on evening and night shifts.

Manufacturing Associate | Tropicana Inc., Ft. Pierce, FL — *2013–2015*

- Produced daily yield loss and production reports relied on by supervisors and engineers for operational decisions.

Food Manufacturing Intern | Tropicana Inc., Ft. Pierce, FL — *2013*

- Supported waste reduction and process improvement initiatives, including data collection on line performance and product loss.

Laboratory Assistant | University of Tennessee — Food Chemistry & Microbiology Lab — *2010–2013*

- Ran and documented food chemistry and microbiology testing under strict protocol and data collection standards.
